

OUR NEEDLE CARTRIDGE VARIETY

ameia has developed and patented the first system in which needles are integrated into disposable single-use cartridges.

Their structure provides highly precise and clean punctures.

Due to the large variety of different needle configurations, you can be sure to find the perfect needle for any kind of treatment. With amiea's needle configuration you are able to apply more colour into the dermis.

HIGHLIGHTS

- + Made in Germany
- + Quick change of colour and needle cartridges
- + Stable, precise needle guidance
- + Safety membrane (no backflow of blood or colour)
- + Patented
